

# Community Grants & Donations

Each year, Ukiah Natural Foods Co-op donates a portion of the previous year's profits to local non-profits working in the fields of health, wellness, and education. As a cooperative organization, the Co-op follows the Seven International Principles, which includes principle number 7 - Concern for the Community. This is another reason co-ops are important!

This year, the Co-op allotted \$8450 from 2020 profits for the community grants program. Below is a list of the awardees.
